OBJECTIVE

Seeking a UI/UX position where I can utilize my creative designing skills and user-centered approach to create intuitive and visually appealing digital experiences.

EDUCATION

Bachelor's Degree in Engineering (B.TECH.), INFORMATION TECHNOLOGY, (CGPA-9.40)   **(2020-24)**
Institute: Devang Patel Institute of Advance Technology and Research
          (Charotar University of Science and Technology)

EXPERIENCE

- **Agevole Innovation Pvt. Ltd. - Surat**   **(May-June 2023)**
  Worked as a Graphic Designer for NewzBy app and made posts, flyers and illustrations.

- **Raven Technolabs - Ahmedabad**   **(May-July 2022)**
  Worked on the user interface for Food Order App using Figma.

- **Freelance Social Media Manager**   **(2023-Present)**
  Managing posting and replying to queries for 3 Instagram business accounts.

PROJECTS

YouTube Clone [Figma]
I created a wireframe, high-fidelity design and prototyped the home screen of YouTube.

Carpooling App [Figma]
I made wireframes and completely redesigned the app's UI from scratch.

DSA Visualizer [Figma, React.js, Node.js]
I designed the user interface (UI) in Figma for a web application that incorporates animations and graphical methods to showcase the implementation of complex data structures and algorithms.

Food Order App [Figma, Flutter, Firebase]
I made a high-fidelity wireframe for an application designed exclusively for hotels, allowing users to browse through various food categories for ordering purposes.

Blood Donation App [Figma, Flutter, Firebase]
I designed the UI for an app aimed at collecting blood from various sources and distributing it to individuals in need.

Splone [HTML, CSS, React.js, Spotify API]
A Spotify clone app is a music streaming website that offers a free platform for listening to music online without the need for downloading. I designed the frontend of the app using HTML and CSS.
